

1/4" DRIVE RATCHETS & RENEWAL KITS

RATCHETS

Wright ratchets are engineered to be both strong and compact. While 1/4" drive ratchets are generally used in low torque applications, Wright ratchets are actually at home in the world of high torque. Compact design—standard head 25/32"—heavy-duty head 1-5/64". Precision machined 45 tooth action—works in the tightest places. One-piece kit is easily removed for inspection and lubrication. Contour handle for a comfortable grip.

PART NUMBER	DESCRIPTION
2426	Ratchet—45 Teeth, 4-3/4"—Single Pawl, Swing Arc 3/4"
2492*	Heavy-duty Ratchet—45 Teeth, 5-1/4", Contour Handle [Head Diameter only 1-5/64". Swing Arc 1"]

*2492 ratchet is a single pawl, heavy-duty, round head ratchet that is superior in strength and durability. Meets or exceeds ASME B107.110.

2495

FLEX HEAD RATCHETS

Head Diameter only 25/32". Handle swings in 3/4" arc to get the next bite. Works in the tightest places. 45 teeth. Seven place indexing flex head.

PART NUMBER	DESCRIPTION
2495	Ratchet—45 Teeth - 5-1/2", Swing Arc 3/4" [Contour Grip] Single Pawl

Meets or exceeds ASME B107.110.

32426

BLACK INDUSTRIAL FINISH RATCHET

PART NUMBER	DESCRIPTION
32426	1/4" Drive Ratchet, 4-3/4", Swing Arc 3/4"

Meets or exceeds ASME B107.110.

RENEWAL KITS

One piece, foolproof. Simply remove the snap ring and drop a new kit into place. On the spot repairs. Extends the life of the ratchet.

PART NUMBER	DESCRIPTION
2401	1/4" Drive Ratchet Renewal Kit for 2426 and 2495
2493	Renewal Kit for 2492
32401	1/4" Drive Black Renewal Kit for 32426

Note: When cleaning your ratchet lubricate with light oil only.
