

1/2" DRIVE RATCHETS

ROUND HEAD RATCHETS

Wright Tool 1/2" drive drop-forged ratchets are the workhorses of the industry. Compact round and pear shaped heads, short handle arc swings, easily changed kits, choice of handle style and problem solving designs. The ratchets are engineered to balance within normal range of sockets to minimize the "nose heavy feeling." Round-head ratchets are 45 tooth design. Single pawl delivers 8° arc, double pawl gives 90 tooth action or 4° of arc.
